ENVIRONMENTAL JUSTICE IN CLIMATE PLANNING

Nailah Pope Harden, State Policy Manager, ClimatePlan
(nah- EE-lah)
What is environmental justice?

Environmental justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income, with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. This goal will be achieved when everyone enjoys the same degree of protection from environmental and health hazards, and equal access to the decision-making process to have a healthy environment in which to live, learn, and work.
What REALLY is environmental justice?

Too often we are focused on the injustices but not enough of what justice looks like
