

2021 Annual Runoff and Allocation Report

Purpose: This report is issued annually by the Water Forum Successor Effort to project March through November Unimpaired Inflow into Folsom Reservoir (March-Nov UIFR). Per the Water Forum Agreement of 2000, this hydrologic index is monitored every year during the months of February through June (See **Figure 1** and **Table 1**) to determine the type of water year and may be used by American River water purveyors and water right holders to determine the extent of their dry-year procedures. For more information on these topics, visit <http://www.WaterForum.org/Dry Year Procedures>.

Projected Mar-Nov UIFR for 2021 is 674 TAF.

Figure 1. UIFR Projections and Annual American River Water Allocation¹

Monthly Runoff and Allocation Report; 2018 (continued)

Table 1. Monthly Runoff Values

Month	UIFR Monthly and Total Volumes in TAF				Final Values
	February Publication	March Publication	April Publication	May Publication	
March ¹	262	262	128	128	128
April ¹	360	310	305	203	203
May ¹	340	320	300	213	213
June ¹	135	120	115	55	55
July ¹	25	20	20	9	9
August and September ¹	6	6	5	3	3
October ²	30	30	30	30	30
November ²	30	30	30	30	30
Total	1,195	1,104	939	674	674

¹ Values are from *Bulletin 120, Water Conditions in California*, California Department of Water Resources (DWR) for the given publication month (<http://cdec.water.ca.gov/snow/bulletin120/>). DWR publishes Bulletin 120 four times a year (February through May), providing forecasts of unimpaired flow for several watersheds in California for the given water year.

² Values are from *Technical Memorandum No. 1, Computing March through November Unimpaired Inflow into Folsom Reservoir*, Water Forum, May 2007.

Significant Post May Events:

Mid-Month storm events in May-2021 did not deviate appreciably from the norm. DWR's post-May runoff updates did not indicate significant changes to the May projection of the March-Nov UIFR. Therefore, no post-May adjustments were made.

USBR American River CVP Municipal and Industrial Contractor Allocation

On February 27, 2015 the CVP announced that Municipal and Industrial (M&I) water service contractors North-of-Delta who are serviced by Folsom Reservoir on the American River are allocated 25 percent of their historic use. (<http://www.usbr.gov/newsroom/newsrelease/detail.cfm?RecordID=48986>).

Please note that the CVP allocations are administered by the USBR and are not part of the Water Forum Agreement. The CVP information is provided for informational purposes only.
